Sept. 29, 1926.

Submit the following for Wednesday, the 29th day of Sept., 1926.

No witnesses were examined here today at Somerville and between 10 and 11 A.M. Underwood had sent for Reporter called Mrs. Nettie, and also for another one called Mazie. They were warned by other reporters not to go to headquarters. Nettie said, "Maybe he wants to give me a drink." Underwood sent word he wanted to have them interview a witness they had talked to sometime ago, he meaning Underwood had two reporters out looking for the colored witness; they returned about 2.30 P.M., saying the information he (Underwood) gave them was not right.

Can say have heard thru reporters that Prosecutor Simpson has nothing more than they had the first time and consensus of opinion is there will be no convictions without Simpson has something he has not given out, but they are sure he has not.

It appears they are tiring of Underwood's promises and also for his disappointment as stated in yesterday's report to you. I left Somerville at 3.10 P.M. and returned after our phone, arriving at 4.40 P.M. and found that three or four of the reporters had beat it away leaving others to cover them. Nothing new and things at a stand still. Will proceed to J.C. Thursday A.M. early.

Respectfully submitted:
